Mock Citizens Workshop
Proposed Improvement of the US 74/76 Intersection
Wrightsville Beach, NC

Mann Hall Room 425
October 6, 2006
4:30 - 5:45 pm

Location – Mann Hall *
Parking +
Project Location
US 74/76 Intersection, Wrightsville Beach, NC

Project Description

The proposed project will ....

- Improve the US74 / US76 intersection (W. Salisbury Street / Causeway Drive) in Wrightsville Beach.
- Will improve safety and reduce congestion.
- Improve local business access.
- Provide an attractive “gateway” to Wrightsville Beach while recognizing community and environmental considerations.
Email Notice to Stakeholders

Eric, Jason -

It was good to see and talk with you at the Durham work shop. Please come to the CSS workshop if you can.

On Thursday October 5 we will have a mock workshop session on our class project US74/76 in Wrightsville Beach. Please come and play a role. We have 2 teams of 5 students and each team has about 30 minutes to show their ideas and get feedback from the other team of students who will play roles of citizens etc. from Wrightsville Beach. Jim Dunlap may come and a few other DOT people. Please see the attachment.

The class meets in Mann Hall 415 (4:30-5:45pm). Parking is available in the lower level of the Coliseum Deck (about $1-$2). Class is a 10 minute walk away. Here are some maps.

http://www.ncsu.edu/campus_map/central.htm

The Colesium Deck is building 99 on east side of campus south of the tracks.

http://www.ncsu.edu/campus_map/north.htm

Mann Hall is building 40 north of the tracks.

After you park, leave the deck and walk to Reynolds Coliseum next door.

Across from Reynolds there is a pedestrian tunnel under the tracks. Mann Hall's back door and elevator are opposite the tunnel.

Thanks. Look forward to your participation in the mock workshop.
