

TRM User Forum

🏠 **Location:** Zoom Meeting
📅 **Date:** April 28, 2021
🕒 **Time:** 1:30 – 3:30

Meeting Agenda

- I. **Welcome (5 min)**
- II. **TRM Service Bureau Updates (10 min)**
- III. **TRMG2 (Caliper) (45 min)**
- IV. **Small Groups (30 min)**

- a) **Going Deep with G2**

This session will be a conversation with G2 developers that will provide an opportunity for those who would like a bit of a deeper dive into TRMG2. There will be no structured presentation, but the developers will share interesting tidbits and lessons learned that are designed to stimulate questions and conversation.

Facilitator: Gerald Daniel, CAMPO

Panelist(s): Kyle Ward, Caliper

- b) **Making Models Work for Communities**

This session will focus on unique applications using the TRM, or data from the TRM. The conversation is intended to highlight various non-traditional applications, share learning experiences, stimulate creative thinking, and identify ways that the TRM reporting and/or output can be improved to facilitate non-traditional applications in order to improve transportation planning and analysis in the Triangle.

Facilitator: Jake Ford, DCHC-MPO

Panelist(s): Ted Mansfield, Resource Systems Group

Alex Bell, Renaissance Planning Group

🏠 **Location:** Zoom Meeting
📅 **Date:** April 28, 2021
🕒 **Time:** 1:30 – 3:30

c) **Nerdy Musings and Curious Cats**

One of the key roles/values of the TRM Service Bureau is to serve as a laboratory of sorts to investigate innovations and emerging issues to improve existing model components or processes, and to guide future model enhancements. This session will be a place to offer ideas, explore questions, and discuss issues that could lay the groundwork for future investigations and/or model improvements. Several seed topics will be presented to stimulate conversation.

Facilitator: Leta Huntsinger, ITRE

Panelist(s): Vince Bernardin, Caliper

V. **Small Group Report Out (15 min)**

VI. **Next Meeting – Fall 2021**
