- II. **TRM Service Bureau Updates (10 min)**
- III. **TRMG2 Update from Caliper (25 min)**
- IV. **Toll Modeling with TRMG2: An Applications Approach (15 min)**
- V. **Small Groups (30 min)**

Moderator: Mike Bruff

a) **Planners Guidebook**

This session will be a focused conversation designed to support the development of a TransCAD for Planners guidebook for non-modelers.

- What types of exploratory and mapping analyses can be done within TransCAD using built-in mapping and analysis tools and outputs from the TRM?
- To identify planning analysis needs that may benefit from such guidelines, what past experiences can you share?

Facilitators: Nita Bhave & Si Shi

b) **Model Applications Guidelines**

This session will be a focused conversation designed to support the development of Model Applications Guidelines for users of the TRM.

- What types of analysis is the model well suited for and what types of analysis is the model *not* well suited for?
- How can we best handle certain off-model analyses such as a demand analysis for roadways with on-street parking, auxiliary lanes, ramp metering, etc.?
- What other off-model analyses to support various projects have you performed?

Facilitators: Gerald Daniel & Jake Ford
